

Establishing a Scholarship Fund through HP Education Foundation

The Highland Park Education Foundation (HPEF) administers over 90 scholarship funds totaling nearly \$1 million. We partner with families, individuals, organizations and estates to achieve their charitable goals, while giving HPHS seniors support to pursue their educational dreams.

What is Your Goal?

The Education Foundation offers a variety of ways for donors to make an impact. Our Scholarship Program provides financial support to graduating HPHS seniors and is one way for donors to give back. The Foundation also offers a high level of expertise to establish named funds that can be customized to meet the critical needs of our HPISD schools, where the money stays right here in our district. Examples include, but are not limited to, teacher salary support, student wellness programs, athletics, and many more. For more information about endowed fund opportunities, please contact Lauren Holloway, Executive Director, at 214-780-4062 or lauren.holloway@hpef.org.

Your Legacy, Our Support

HPEF provides complete administration of your scholarship fund from publicizing the scholarship, creating, receiving, and processing the applications, convening the scholarship committee and everything in between. Donors may choose to be involved or not involved throughout the scholarship process. Please note that all scholarships are subject to the Foundation's Scholarship Selection Procedures.

Your Gift

HPEF only manages endowed scholarship funds. Endowed funds require a minimum initial gift of \$50,000 and are maintained in perpetuity. Funds must be in place for a minimum of one year before a scholarship distribution can be made. Scholarship distributions must be \$1,000 or greater.

Fees:

Scholarship Funds incur an annual 1% fee on the market value of the fund. Details of HPEF's fee policy may be found at hpef.org/financials.
